RAIL TUNNEL DIRECT-AC FIXTURE

Long Lifetime Direct-AC Driverless:

Connects directly to AC line voltage without a traditional LED driver or electrolytic capacitors, for extreme reliability and lifetime. Metal core LED module for superior heat dissipation.

Replaceable Light Engine:

Fully sealed IP68 LED light engine features a quick disconnect for fast replacement. As easy as a bulb change - no rewiring required.

Built for Harsh Environments:

Our patented co-extruded aluminum and copolyester housing was developed specifically for harsh environments. Certified to the highest ingress and impact protection ratings available, IP68 and IK10.

Buy America Compliant:

Engineered and manufactured in New York and Buy America compliant, G&G's TRX fixture is built on quality, innovation, and the latest in LED technology.

Integrated Wiring Box & Quick Disconnect

RAIL TUNNEL DIRECT-AC FIXTURE

Strong
Corrosion resistant 16 GA galvanized steel

Lightweight
Weighs only 4.5lbs

Low Profile
Less than 2" deep

Bright
Up to 9,600 lumens, Single or double light option

Fast Install
Large 1/2" mounting holes for easy, secure tunnel wall mounting

Replaceable Light Engine
Fully sealed IP68 LED light engine features a quick disconnect for fast replacement. As easy as a bulb change - no rewiring required

Sealed IP68 Housing
Patented housing developed specifically for harsh environments. Certified to the highest ingress and impact protection ratings available

Direct-AC Driverless
State of the art LED technology to ensure long lifetime and high efficacy. Metal core LED module for superior heat dissipation
