## TRANSIT APPLICATIONS

### Quick-Connect Cabling:

Patented quick-connect wiring system for quick and easy installation and maintenance

### Maintenance Free:

We oversize our heatsink and underdrive our LEDs for industry leading lifetimes

### Low Profile:

Innovative linear housing allows for a remarkably slim profile and a modern look

### Transit Applications

G&G's rugged linear luminaires feature a patented quick-connect wiring system ideal for various applications throughout the transit industry. This innovative feature is a time saver, especially when making daisy-chained fixture runs. The low-profile design allows for a remarkably slim profile and modern appearance. From walkways and platforms to bridges and tunnels, G&G luminaires are a leading candidate for a wide variety of transit lighting applications.
