FOOD PROCESSING WORKSTATION LIGHTING

IP69K Wet Location Rated:

A seamless copolyester shell provides IP69K ingress protection and extreme chemical resistance excelling in hose down applications and/or daily sanitation

Low Profile Design:

Engineering around the latest in LED technology to achieve a low-profile 2" design, the end result is a strong, compact luminaire that is installation friendly

20,000 Lumen Output:

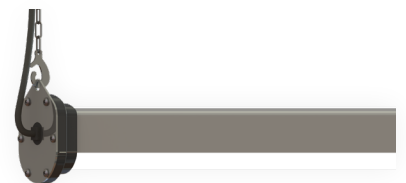

The high output design produces up to 2,500 lumens per foot to meet and exceed lighting requirements at workstations with a single fixture

Mini-Change Receptacle Option:

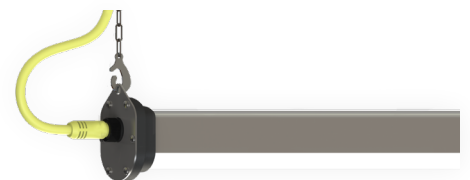

Integrated 3 or 4 pin Mini-Change receptacle for simple and reliable quick-connect

Made in the USA:

Engineered and manufactured in New York, G&G fixtures are built on quality, innovation and the latest in LED technology

Hard Wired

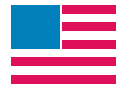

Mini-Change Receptacle
