LED LIGHTING FOR MAINTENANCE PITS

TRX: Industrial Driverless Linear

G&G's TRX is an IP68-rated, harsh-environment-rated luminaire engineered for industrial applications. Its 1" low-profile, aim-able design allows TRX to be mounted in space-restricted locations. The heavy-duty cabling, with push-and-click connectors, makes it easy to install and daisy chain for long linear runs. The innovative driverless technology connects directly to AC line voltage, providing extreme reliability and zero maintenance.

Low-Profile, Driverless AC LED Luminaire for Maintenance Pits

FOR NON-VENTILATED MAINTENANCE PITS

HLX: Hazardous Location Linear

Whenever safety is concerned, it's always best to err on the side of caution. Maintenance pits without proper air circulation are considered hazardous locations and therefore require specific equipment to ensure safety. G&G's HLX fixture is a linkable, low-profile luminaire specifically designed and certified for hazardous locations (Class 1: Division 2 and Class 2: Division 2).

KEY FEATURES

- Maintenance-free driverless design for extreme reliability and lifetime
- Protection from water and debris in extremely harsh environments
- Chemical and corrosion resistance
