LED LIGHTING FOR **VACUUM ARCHES**

VAC: Bendable LED Linear Luminaire for Vacuum Arch Lighting

G&G's VAC is an IP67-rated luminaire engineered specifically for vacuum arches. Built to withstand harsh environments and prolonged outdoor exposure with its protective UV-blocker. Its 1" low-profile, hand-bendable design with plug-and-play cabling allows VAC to be easily formed and installed to meet the radius of the arch. The innovative driverless technology connects directly to AC line voltage, providing extreme reliability and zero maintenance. G&G's VAC fixture is proudly made in America.
