## Bendable LED Linear Luminaire for Vacuum Arch Lighting

### Zero-Maintenance Driverless Design

Connects directly to AC line voltage without an LED driver or electrolytic capacitors, for extreme reliability and lifetime.

### Coextruded Copolyester/Aluminum Housing

Our patented process combines copolyester and aluminum together, with no seals or gaskets. The result is a single piece enclosure with excellent heatsinking characteristics for a long lifetime and reliability.

### Superior Chemical & UV Resistance

Seamless polymeric outer shell provides IP67 ingress protection and is specialized for superior chemical resistance. Includes an additional protective coating which integrates a UV blocker for outdoor applications.

### Easy to Install & Bend for Vac Arches

Convenient push-and-screw connector makes VAC series fixtures easy to install and bendable housing allows easy forming to radius of vac arch.

### Compact, High Output LEDs

Remarkably slim, low-profile one-inch design, that packs a punch at up to 4,800 lumens.
